

ClinicFlow

ClinicFlow

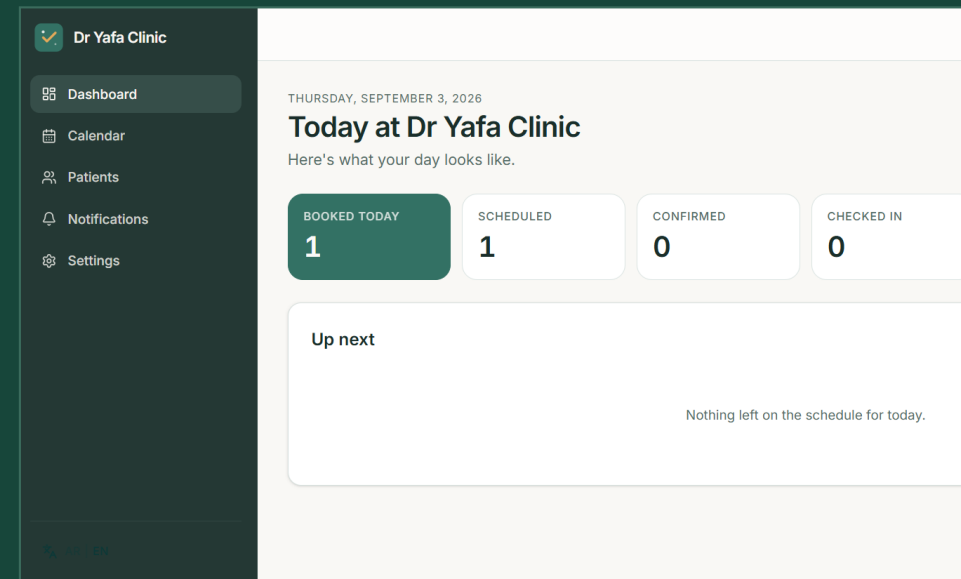

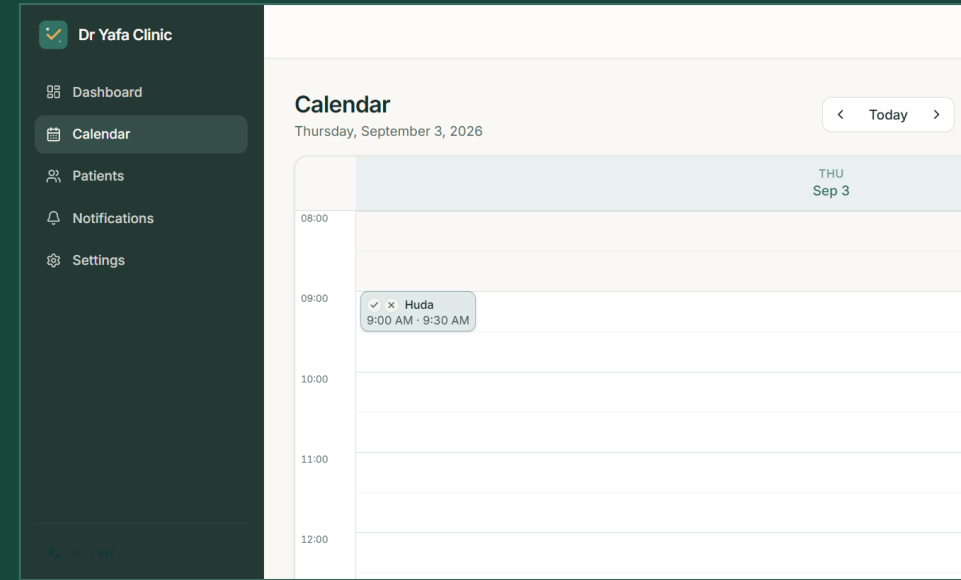

A bilingual scheduler and patient log for a small private clinic run by one doctor and one assistant.

Arabic + English

Appointments + patients

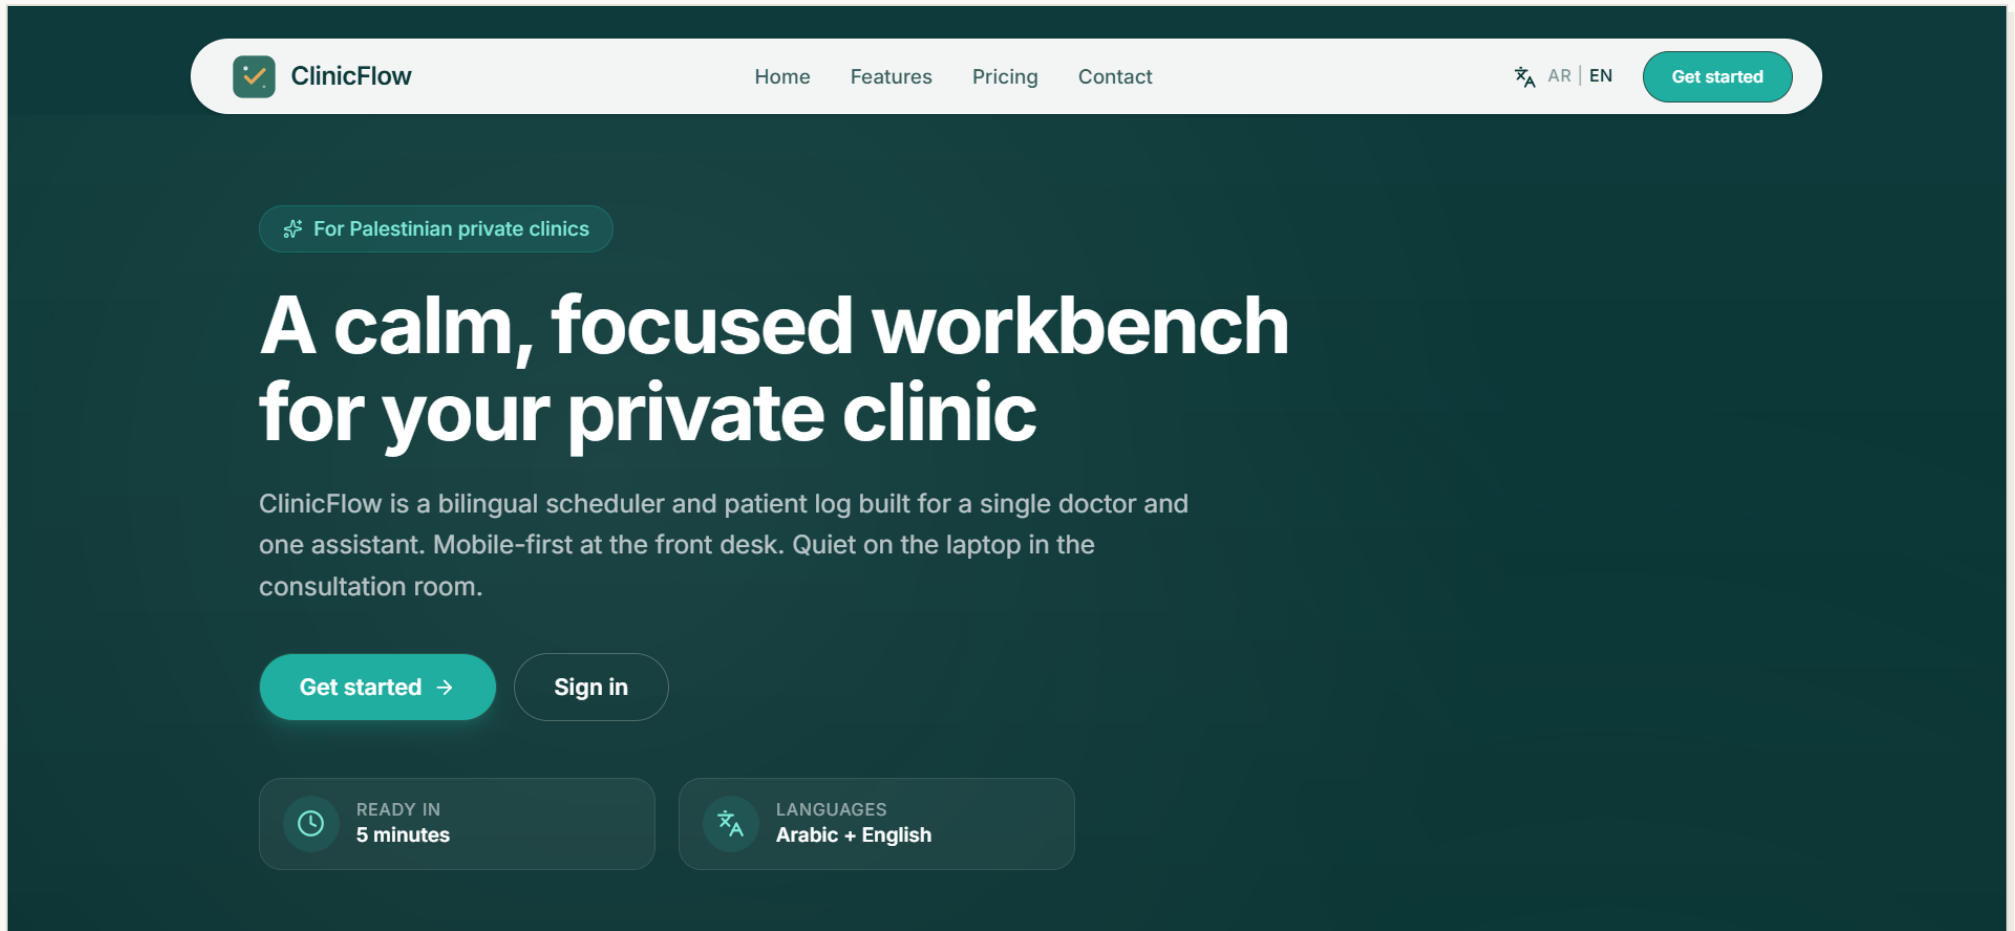

WhatsApp reminders

Responsive web app

Landing page

Positioning is deliberately narrow: one doctor, one assistant. The Arabic / English switch sits in the navigation from the very first screen rather than being buried in settings.

Contact section

Phone and WhatsApp lead, email is optional. The subject field is a fixed set of topics so enquiries arrive pre-sorted instead of as free text.

Contact

We are always here to help. Please don't hesitate to contact us with any questions or to book an appointment. Our team will respond as soon as possible.

Clinic setup, step one

Three required fields only, so a clinic can be live in about five minutes. Licence number, specialty and logo are optional and can be filled in later.

Set up your clinic

We'll get the basics down so you can start booking. You can change everything later.

Doctor profile

Tell us a bit about yourself. This appears on prescriptions and invoices.

Full name *

e.g. Dr. Hanan Khalil

Working hours and breaks

Every day toggles open or closed and carries its own breaks for lunch or prayer. Friday and Saturday default to closed, matching the local working week.

Working hours

Set when the clinic is open. Add a break for lunch or prayer if you need to.
