

Yafa Khateeb

Financial Data Analyst

Yafa.khateeb4@gmail.com | Ramallah, Palestine | LinkedIn: Yafa Khateeb | +972 568449589 | GitHub: YafaKh

SUMMARY

Data Analyst with 2+ years of experience in financial and operational reporting, specializing in SQL, Python, and Power BI. Experienced in developing automated dashboards, optimizing reporting workflows, and supporting data-driven decision making across cross-functional teams. Strong background in data validation, reporting automation, and stakeholder collaboration.

PROFESSIONAL EXPERIENCE

Proficien, Product Engineer - Cold Email Platform (Apr 2026 – Present)

- Co-designed and currently developing backend features for a scalable cold email automation platform using NestJS, Next.js and PostgreSQL, including campaign workflows, contact management, and email scheduling.
- Supporting data-driven customer acquisition through campaign optimization and engagement analytics.

Palestine Islamic Bank, Financial Data Analyst (Feb 2024 – Mar 2026)

- Developed 30+ automated financial reports using SQL, enhanced and customized additional reports for departmental needs, and deployed them on Oracle BI to create a centralized access point, reducing manual reporting time and improving data accessibility.
- Built Power BI dashboards for senior management, enabling data-driven decision-making and real-time performance tracking.
- Prepared recurring financial reports for senior management, external auditors and the Palestine Monetary Authority (PMA) using SQL and Excel.
- Identified data anomalies, analyzed root causes, and provided justifications for irregularities while continuously monitoring KPIs to support timely business actions.

Auxilium Technology, Full-Stack Trainee - personal portfolio (Jul 2022 – Aug 2022)

- Built a responsive portfolio web application using Laravel and Bootstrap.
- Practiced Agile team collaboration and led task coordination using Bitbucket, Jira, and SourceTree.

VOLUNTEER EXPERIENCE

Zakey Tech, Teaching Assistant for AI Agent Bootcamp (Jun 2025 – Present)

- Supported instruction for an AI Agent Bootcamp cohort of 80 Palestinian students, reviewing technical content and assisting with Python-based assignments.
- Evaluated student projects and provided debugging guidance on data processing and AI workflows.

SKILLS

- Data & Analytics: SQL, Python (Pandas, Numpy, Statsmodels, Matplotlib), Power BI, Tableau, Excel
- Development: NestJS, Next.js, Laravel, Bootstrap
- Product & Agile Tools: Bitbucket, SourceTree, Figma
- Languages: Arabic (Native), English (Professional)

EDUCATION

Bachelor of Science: Computer Science (2019 – 2023)

Arab American University, Palestine (GPA: 3.53 / 4.00)
